Word Problems

Solve each problem.
Show your work in the space provided.

1. Today is the big dodgeball tournament and Amy can barely contain her excitement. She gets to gym class early to help Ms. Santiago set up. Ms. Santiago asks Amy to put down a rope which will divide the gym in half. After Amy puts down the rope, how many parts will there be in the gym? Draw a model of the gym below.

There will be _____ parts in the gym after Amy puts down the rope.

2. Jake is very excited for dessert today. His mom made her world-famous chocolate cake. Before Jake arrives, his mom cut the cake into fourths. How many pieces of cake are there? Draw a model of the cake below.

There are _____ pieces of cake.
