

# Marathon Run Game

A game for 2 players

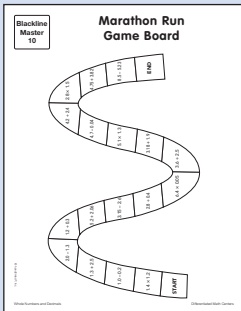

## Materials

Classifying Counters

Number Cube

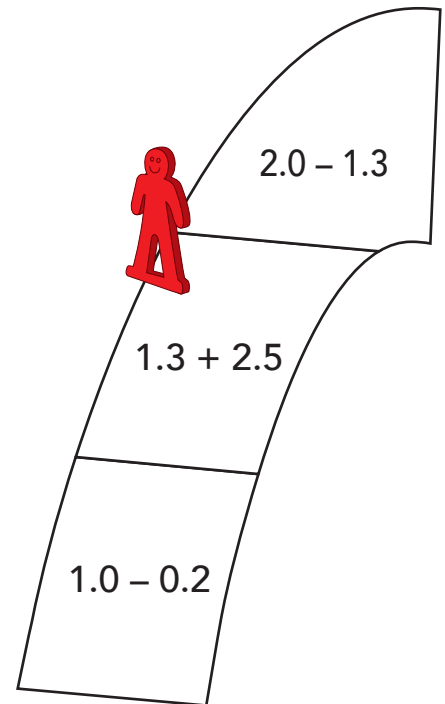

Blackline Master #10

## What to Do

1. Each player chooses a colored counter and places it on START on the game board.
2. Player 1 rolls the number cube and moves the counter that many spaces on the game board. Note: If a player lands on a space that is already taken by another player, that player rolls again.

## Show Your Work

3. Player 1 solves the problem in that space.
4. Player 2 checks Player 1's answer. If Player 1's answer is correct, Player 1 stays on that space. If Player 1's answer is incorrect, Player 1 goes back 2 spaces.
5. Player 2 takes a turn.
6. The first player to land on END wins the game.

*How can you check your answer to any decimal division problem?*

# Skill Practice

Add, subtract, multiply, or divide.

1.  $8.13 + 9.31$

2.  $4.3 \times 1.2$

3.  $5.34 - 3.45$

4.  $5.2 \div 0.8$

5.  $6.31 \times 0.4$

6.  $2.8 \div 0.5$

7.  $7.8 - 2.09$

8.  $9.28 + 0.29$

9.  $5.38 - 4.89$

10.  $6.24 \div 1.2$

11.  $3.63 + 5.2$

12.  $4.62 \times 4.56$
